Mr. Slater,

Thank you for the copies of the tax returns I requested, as per I.R.S. statutes. I will talk to Ms. Karen Bare Kamimoto to find out when the 2006 Return will be ready. The '03, '04, and '05 returns have been turned over to an auditor for analysis.

I have not received any response from you concerning the balance of the information requested in my letter dated December 7, 2006. Since it has been over 6 weeks, I can only assume that you are not willing to furnish me with this information. Why not??

We plan to ask, any unanswered questions that were in my letter/s, again at the tract meetings and at the HLA meeting. People need to know the facts. A response of "I don't know, I'll have to get back to you" will not be acceptable, since I'm giving you advance notice. Copies of my letters and your responses will be made available to anyone who wants them.

H.L.V.F.D. is a very small business, with no members, that relies totally on donations from the outside to survive. I'm sure I can say that the cabin owners, condo owners, and property owners want H.L.V.F.D. to survive. But doubts have risen as to the integrity of its operations. H.L.V.F.D. has no monetary accountability to the people of Huntington Lake area and you know it, nor are the people of Huntington Lake area legally obligated to give any monies to H.L.V.F.D.. Why doesn't H.L.V.F.D. provide the information that is requested to gain the support they need? Is there something to hide? It sure appears that way.

We predict that as "doubts" rise, "donations" will fall. Is this what you want? It will not be our fault whatever happens because we just want the truth. Lies and deception have caused you problems in the past and will cause you problems in the future, and you will be the only ones to blame.

Sincerely,

J. Michael Wakefield
